

W E B M A S O N

W E B M A S O N

We are a collective of *artists, designers and programmers* with one goal in mind: *build the next face of the Internet.* Just as masons of old built long lasting quality structures brick by brick, so do we—*one user interface and print layout at a time.* We have years of experience building a variety of websites and internet applications for a multitude of uses. Simple one page sites, *not a problem.* Massive database driven interactive sites, *not a problem.* If you've seen it online, we'll be able to build it for you, and we'll even show you things you thought couldn't be done.

The fusion of Design,

Users associate a lot of ideas and emotions with organizations; you can either harness this force, or be at the mercy of it. We like making quality web sites that are the right kind of cool to connect with your unique user.

Technology & Know-How

We don't just want to build you a web site. We want to build you a tool that will communicate with your customers.

Update your site's content at your leisure with an easy-to-use web interface. We want to put you in control and by making a tool that will last you for years to come.

We can even save you countless hours of work by allowing you to export your on-line data into print-ready documents.

We understand perception, and we want to craft a perception of you that resonates with your customers and hits your demographic.

The modern business needs to reinforce their identities in all media: your web, print, motion graphics, and interactive media; we understand this.

Support the Initiative
for a New San Marino
Public Library

CLICK TO DONATE

We redesigned the San Marino Public Library's website in order to help increase community donations. So far the fund raising effort has been a huge success, raising millions for the construction project for a new San Marino Public Library.

MANY THANKS TO OUR GENEROUS DONORS!

The Project for a new San Marino Public Library Continues

A blanket statement about SMPL goes here in order to introduce what it is about to site visitors who may or may not know what the project is about and explain it adequately to newcomers in the community and potential donors.

Our Goal

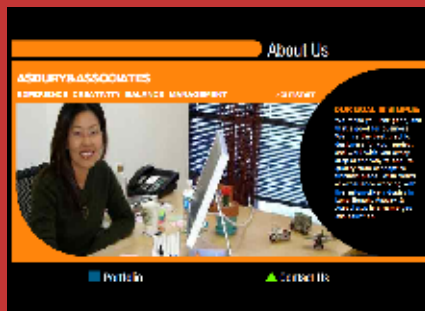

SX.X Help San Marino have a world class library.

stockwelldesigns.com

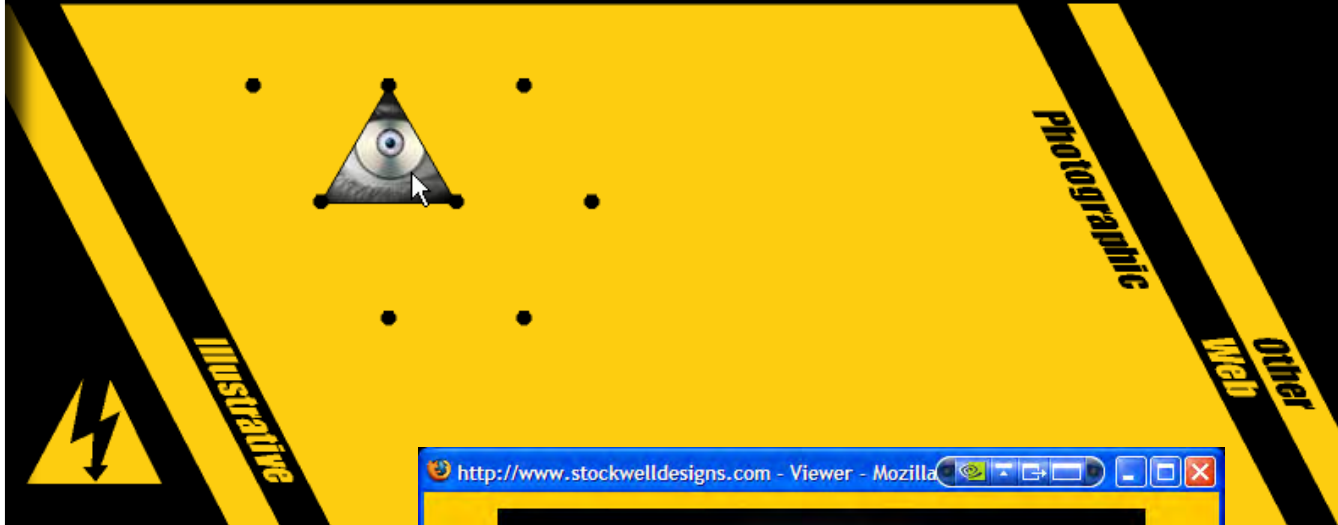

Webmason's design team created this self-promotional site for Bryce Stockwell, a young up-and-coming graphic & web designer. It is flash-heavy and responsive to user input while keeping design clean & simple to focus more on the sense of motion that flash can provide when properly programmed.

I have been fascinated with the fusion of organic and digital, and altering the eye always has the most visual impact, since it's the part of the face we seek out first.

Lexus Marketing Materials (various)

Our design department created these brochures for Asbury & Associates. These marketing materials were distributed to Lexus dealerships across the country to promote and showcase Genuine Lexus Accessories.

Scion Marketing Materials (various)

These were created by Webmason's design team in collaboration with Asbury & Associates to promote and showcase SCION accessories in dealerships nationwide.

Toyota Marketing Material (various)

Created for dealerships and distributed nationwide to promote Genuine Toyota Accessories. Bottom Right corner is Packaging design for Tacoma Bed Nets.

Print-ready accessories chart maker

We created a web tool that would extract data from Toyota's Online Accessory Database and convert it into a print-ready format ready to be placed into designs and set to press. This saved countless hours getting Toyota's time-sensitive data to press.
